OBSTETRICS**

Eve Health is a complete women's health clinic. We believe in personalised, expert and comprehensive care for girls and women of all ages.

When something is not quite right, if you are having difficulties starting a family or when you want the very best pregnancy care, then Eve Health is here for you.

At Eve Health your individual needs, values and preferences are central to the care we provide you. Our experience and holistic approach sets us apart. We have a respected team of specialists, midwives and nurses, many of whom have trained internationally in leading hospitals and are involved in clinical research and training.

Brookwater QLD 4300

## Gynaecology

Eve Health offers private paediatric, adolescent and adult gynaecology. Gynaecological issues can cause stress, pain and anxiety for some; but rest assured we are dedicated to supporting you and improving your quality of life. If surgery is required, it will be performed with the most advanced and minimally-invasive techniques, by some of Australia's most skilled gynaecologists.

## Fertility

Starting a family may prove harder for some. Over the last 10 years, Eve Health has successfully assisted thousands of couples and women to conceive through world class fertility treatment with our experienced and caring team.

At Eve Health we are very proud to have advanced laparoscopic surgeons and CREI sub specialists, with advanced training in reproductive endocrinology and infertility, as a resource to our specialist services.

We take the time to understand your individual case and choose the treatment path that best suits your personal and clinical needs. Your doctor and your fertility nurse will support you through your treatment. Our partnership with QFG ensures that Eve Health fertility patients access the best scientific minds and state of the art technologies. We are confident that your best chance of success is with Eve Health.

## Obstetrics

Eve Health is Brisbane's largest obstetric group with 10 obstetricians, midwifery support, antenatal education sessions and an exclusive Eve Health parents' group.

Your chosen obstetrician will personally care for you from your first appointment, through your pregnancy, delivery and onto postnatal care. We strongly believe the one-on-one relationship with your obstetrician provides the best opportunity for a well-managed pregnancy and a safe, successful delivery.

94% of our women deliver with their chosen obstetrician\*. On the rare occasion that your obstetrician cannot be at the delivery of your baby, another Eve Health obstetrician, who understands and has knowledge of your pregnancy, will attend your delivery.

Our doctors deliver at the Mater Mothers' Private Hospital and The Wesley Hospital.

*\*Based on deliveries by Eve Health obstetricians between April 2018 to January 2019.*
